

Clinical Internship Evaluation Tool

Student Name:_____

Student ID Number: _____ **Year of Graduation:**_____

Clinical Facility:_____

Type of Rotation:_____ **Date:**_____

Midterm:_____ **Final:**_____ **or One-Year Affiliation Quarter (specify):**_____

Days Absent:_____ **Days Made Up:**_____

Clinical Instructor:_____

Clinical Instructor's Phone Number:_____

Clinical Instructor's E-mail:_____

Clinical Instructor Assessment_____ **or Self-Assessment**_____

Clinical Instructor Only: **Completed APTA CCIP Level I Course?** ___ Yes ___ No
 Completed APTA CCIP Level II Course? ___ Yes ___ No

Other Credentials: _____ **Years of Clinical Experience** _____

Clinical Internship Evaluation Tool Instructions

USING THE FORM

This form is composed of two sections. The first section, ***Professional Behaviors***, evaluates Safety, Professional Ethics, Initiative, and Communication Skills in the clinic. Safety behaviors address whether the student is following all health and safety precautions required at your facility along with taking any other measures needed to maintain both the patient's safety and their own safety. Professional Ethics addresses the student's knowledge of, and compliance with, all rules, regulations, ethical standards, legal standards, and their professional appearance and conduct in the clinic during all interactions. Initiative addresses the student's ability to maximize all opportunities for learning during their clinical affiliation, begin to problem solve independently, seek out, accept, and implement constructive criticism, and develop teamwork and flexibility in the clinical setting. Communication Skills looks at both their ability to verbally communicate with patients, families, and other healthcare professionals along with their written skills with documentation, home programs, and other required paperwork.

When evaluating the student on ***Professional Behaviors***, the frequency of appropriate behavior is the construct being measured. The occurrence of the appropriate behavior is rated as: *Never* (0% occurrence), *Rarely*, *Sometimes* (50% occurrence), *Most of the Time*, or *Always* (100% occurrence). From the onset of the fieldwork experiences, our expectation is that the student shows safe, professional behavior and demonstrates a great deal of initiative. **Note that you cannot mark "Not Observed" on these behaviors.** You may mark "not observed" for Communication Skills if the student has not had the opportunity to demonstrate a particular skill. For instance, if the student has had no opportunity to communicate with other professionals this would be "not observed." If there are any concerns, or if you have positive feedback for the student, please elaborate in the "Comments" section. We expect the student to "*Always*" demonstrate ***Professional Behaviors*** in the clinic, with the exception of Communication Skills, which may be developing during the initial clinical education experiences.

The second section, ***Patient Management*** evaluates the student's ability to efficiently manage a patient with an effective outcome. It is divided into four sections, Examination, Evaluation, Diagnosis/Prognosis, and Intervention. These elements of patient management are defined in the APTA Guide to Physical Therapist Practice. The examination includes all aspects of gathering data from the patient including obtaining a history, a systems review, and performing tests and measures. The evaluation is the analysis and synthesis of the data gathered in order to determine a diagnosis and plan of care for the patient. The student should demonstrate the development of their critical thinking skills during the evaluation process of patient management including determining the patient's impairments and functional limitations. Diagnosis/Prognosis involves all aspects of developing a plan of care for the patient including determining a diagnosis for physical therapy management (not the medical diagnosis), determining the prognosis or outcome for this episode of physical therapy care, determining the appropriate frequency and duration of care including criteria for discharge, and determining the appropriate treatments. Intervention includes the student's ability to apply the treatments, perform patient/family education, monitor the patient's response to treatment and adapt accordingly, and recognize when the outcome has been reached. For all areas of patient management, the student should be using the best available evidence in their decision making.

When evaluating the student's ***Patient Management*** skills, please keep in mind that the student should be compared to a 'competent clinician who skillfully manages patients in an efficient manner to achieve an effective outcome'. This form is designed for use with all patient types, and in any clinical setting, thus the student should be evaluated based on your clinic population and the expectation for productivity/efficiency in your specific clinic. In considering the student's scores for their Patient Management skills, please review the following definitions first.

Types of Patients:

Familiar presentation: Could include any of the following: a patient diagnosis/problem that is seen frequently in your setting, a patient with a diagnosis that the student has evaluated and treated more than once, a diagnosis that was specifically covered in the student's didactic curriculum, a patient who does not have a complex medical history or complicated course of care for this episode of care in physical therapy.

Complex presentation: Could include a patient problem/diagnosis that is rarely seen, a patient problem/diagnosis that the student did not cover in their didactic curriculum, a patient diagnosis that is rarely seen in this clinic, or the patient who has had a complicated course of care for the present episode of care or a complex medical history.

Level of Clinical Instructor Support:

Guidance: Student is dependent on the CI to direct the evaluation/patient treatment; either the CI is present throughout the patient interaction or the student needs to discuss with the CI after each step of the evaluation and treatment. If the student requires the guidance level of support for an item on the Patient Management Scale for the majority of the patients they are seeing, then they should be marked at ***Well Below*** for that item.

Supervision: Student is able to carry out the evaluation and treatment but needs to be monitored to correct minor errors in technique or to facilitate decision making. The student is able to make the correct clinical decisions with only a few verbal cues/suggestions from the CI. The CI is not directing their decision making. If a student requires supervision for an item for patients with both a familiar and a complex presentation, then they should be marked ***Below*** for that item. If they only require supervision for patients with a complex presentation, then they should be marked ***At That Level for Familiar Patients***.

Independent: A student is considered “independent” if they are directing the evaluation and treatment and getting an effective outcome. If a student is coming to the CI for consultation about a patient’s evaluation or plan of care, or clarifying a clinical decision, this is not considered “Supervision”. When the student is at the “independent” level of CI support for an item on the Patient Management Scale, the student is demonstrating the skills of a competent clinician. If they are independent only for patients with a familiar presentation, then they would be marked ***At That Level for Familiar Patients***. If they are independent for all patients, then they would be marked ***At That Level for all Patients***.

Please score the student on ***Patient Management*** items as follows:

Well Below: Student requires Guidance from their clinical instructor to complete an item for all patients.

Below: Student requires supervision and/or has difficulty with time management while completing the item for all patients. The student could continue to require Guidance for the patient with a more complex presentation while only needing Supervision with the patient with a familiar presentation.

At That Level for Familiar Patients: Student is independently managing patients with a familiar presentation; they are at the level of a competent clinician with these patients when performing an item. Students require Supervision to manage patients with a complex presentation and they are below the level of a competent clinician for these patients.

At That Level for all Patients: Student is independently managing both patients with a familiar presentation and patients with a complex presentation. Student can carry an appropriate caseload for your clinic and achieve an effective outcome with patients. The student is at the level of a competent clinician in your setting.

Above: Student is performing above the level of a competent clinician in your clinic. Clinical skills are highly effective and demonstrate the most current evidence in practice. The student can carry a higher than expected caseload. The student actively seeks out and develops independent learning opportunities. The student serves as a mentor to other students and provides resources to the clinical staff.

Please use the comment page for specific areas of concern and/or positive feedback. In addition to adding comments, please check off whether the student has met the clinical benchmarks for this affiliation. The student should have provided you with clinical benchmarks specific to their affiliation. The clinical benchmarks are also available on the University of Pittsburgh Clinical Education Portal.

Global Rating Scale: On the last page you are asked to make a global rating about how the student compares to a competent clinician on an eleven point scale from 0 to 10. The bottom of the scale indicates a student *Well Below a Competent Clinician* and the top of the scale represents a student *Above a Competent Clinician*. Please place an X in one of the boxes indicating the level where you feel your student is performing.

On the last page please also indicate whether the student is performing at a satisfactory level for their current level of education. The clinical benchmarks for their affiliation are the minimal expectations for the affiliation so if they are not meeting them, then they are not performing at a satisfactory level. Please let the DCE know immediately if there is a problem in any area of **Professional Behaviors** or the student is not meeting their clinical benchmarks in a timely manner. In the comment section, please explain a *No* response and give an overall summary of the student's performance.

Please complete this form and review it with the student at midterm and at the end of the affiliation.

STUDENT NAME:_____

STANDARDS & BENCHMARKS			RATING			
PROFESSIONAL BEHAVIORS	Never	Rarely	Sometimes	Most of the Time	Always	Not Observed
SAFETY						
1. Follows Health and Safety Precautions (e.g. Universal/Standard Precautions)						
2. Takes appropriate measures to minimize risk of injury to self (e.g. appropriate body mechanics)						
3. Takes appropriate measures to minimize risk of injury to patient (e.g. chooses correct level of assist)						
Comments: Met Clinical Benchmarks for Safety <input type="checkbox"/> Yes <input type="checkbox"/> No						
PROFESSIONAL ETHICS						
1. Demonstrates compliance with all regulations regarding patient privacy, confidentiality, and security. (e.g. HIPAA, DOH, PA PT Practice Act)						
2. Demonstrates positive regard for patients/peers during interactions						
3. Demonstrates cultural competence; shows tolerance of and sensitivity to individual differences						
4. Adheres to ethical and legal standards of practice, including Practice Act and APTA Code of Ethics						
5. Maintains appropriate appearance and attire in accordance with the facility's dress code						
6. Maintains appropriate professional conduct and demeanor as per the Code of Professional Conduct						
7. Demonstrates awareness of patients' rights and Responsibilities						
Comments: Met Clinical Benchmarks for Professional Ethics <input type="checkbox"/> Yes <input type="checkbox"/> No						

STUDENT NAME: _____

STANDARDS & BENCHMARKS			RATING			
PROFESSIONAL BEHAVIORS	Never	Rarely	Some-times	Most of the Time	Always	Not Observed
INITIATIVE						
1. Recognizes and maximizes opportunity for learning						
2. Implements constructive criticism						
3. Utilizes available resources for problem solving						
4. Is a positive contributor to the efficient operation of the clinic through the demonstration of teamwork and flexibility						
Comments: Met Clinical Benchmarks for Initiative <input type="checkbox"/> Yes <input type="checkbox"/> No						
COMMUNICATION SKILLS						
<i>Communicates <u>verbally</u> with precise and appropriate terminology and in a timely manner.</i>						
1. With patients and families/caregivers						
2. With healthcare professionals (e.g. MD, nurses, insurance carriers, case managers, OT, ST, etc.)						
<i>Communicates <u>in writing</u> with precise and appropriate terminology and in a timely manner.</i>						
3. Documentation standards (e.g. concise, accurate, legible; conforms with standard procedures)						
4. With professionals (e.g. documentation, letters, plans of care, etc.)						
5. With patients and families/caregivers (e.g. patient home programs, etc.)						
Comments: Met Clinical Benchmarks for Communication <input type="checkbox"/> Yes <input type="checkbox"/> No

STUDENT NAME: _____

Please compare the student to the competent clinician who is able to skillfully manage patients in an efficient manner to achieve an effective outcome. (Refer to page 3 for RATING definitions)

STANDARDS & BENCHMARKS			RATING		
PATIENT MANAGEMENT	Well Below	Below	At That Level for Familiar Patients	At That Level for all Patients	Above
EXAMINATION					
1. Obtains an accurate history of current problem					
2. Identifies problems related to activity limitations and participation restrictions using standardized outcomes instruments when available					
3. Performs systems review and incorporates relevant past medical history					
4. Generates an initial hypothesis					
5. Generates alternative hypotheses (list of differential dx)					
6. Selects evidence-based tests and measures to confirm or disconfirm hypotheses					
7. Recognizes contraindications for further tests and measures					
8. Demonstrates appropriate psychomotor skills when performing tests and measures					
EVALUATION					
1. Makes correct clinical decisions based on the data gathered in the examination (confirms/disconfirms initial and alternative hypotheses)					
2. Identifies impairments in body structure and function; activity limitations; and participation restrictions					
3. Administers further tests and measures as needed for appropriate clinical decision making					
DIAGNOSIS/PROGNOSIS					
1. Determines a diagnosis for physical therapy management of the patient					
2. Determines expected outcomes (using standardized indices of activity limitations and participation restrictions where applicable) of physical therapy interventions (goals)					
3. Selects appropriate physical therapy interventions or makes appropriate consultations or referrals					
4. Determines appropriate duration and frequency of intervention; considers cost effectiveness					
5. Determines criteria for discharge					
INTERVENTION					
1. Adheres to evidence during treatment selection					
2. Applies effective treatment using appropriate psychomotor skills					
3. Incorporates patient/family education into treatment					
4. Incorporates discharge planning into treatment					
5. Assesses progress of patient using appropriate measures					
6. Modifies intervention according to patient/client's response to treatment					
7. Recognizes when expected outcome has been reached and makes appropriate recommendations					
8. Recognizes psychosocial influences on patient management					

STUDENT NAME: _____

Please comment here on the specific areas of concern or areas of strength.

Examination:

Met Clinical Benchmarks for Examination? ☐Yes ☐No

Evaluation:

Met Clinical Benchmarks for Evaluation? ☐Yes ☐No

Diagnosis/Prognosis:

Met Clinical Benchmarks for D/P? ☐Yes ☐No

Intervention:

Met Clinical Benchmarks for Intervention? ☐Yes ☐No

1. Global Rating of Student Clinical Competence

On a scale from 0 to 10, how does the student compare to a competent clinician who is able to skillfully manage patients in an efficient manner to achieve effective patient/client outcomes?

Place an "X" in the box which best describes the student.

0	1	2	3	4	5	6	7	8	9	10

*Well Below
a Competent
Clinician*

*Above a
Competent
Clinician*

2. Is the student performing at a level that is satisfactory for his/her current level of education?

____ Yes

_____ No

Summative Comments: _____
